NATURE

Being immersed in nature is an important healing aspect of my retreats. You will love the 3 days of stunning guided hikes - great for opening up to new perspectives and finding clarity.

Along the way, my guides, Marc and Miguel will infuse the hikes with island history and culture and when the hikes end in stunning villages such as Deià or Valdermossa you will have time to explore further before returning to the Finca! Hikes are between 9km and 11km on rocky terrain, lasting between 4-5 hours, including breaks. A private bus transfer company drops and scoops us up safely.

From my 'recce's', I personally select hikes that have breathtaking views and certainly the "wow factor"! We walk with hiking poles and whenever there is a wild swimming opportunity, we dive in! For those "returning" I endeavour to introduce new hikes whilst remaining mindful of the group's fitness levels.

Nearer the time, I will recommend a little advance preparation to ensure maximum enjoyment - it is important to arrive with a reasonably good level of fitness and I hope that by booking early you can have it firmly in the diary as a goal. Guaranteed, your legs will feel nicely toned when you return home! If you have never hiked with poles before, this is the perfect opportunity to learn something new with our guidance - they are a game-changer - so great for balance, giving you the confidence and passion for hiking for years to come!

NURTURE

Whether a beginner or advanced yogi, the joy of immersing yourself on a retreat will enable you to take a deeper dive into your practice. We enjoy the option of practicing inside a beautiful Yoga Shala or under the outdoor Shala with far reaching views depending on the weather! I particularly love to teach Elemental Flow Yoga, each day invoking one of the 4 elements which in turn stimulate a specific Chakra. The yoga practice will also prepare you for the hiking day ahead.

Every evening, together we explore a slower 'Yin Yoga' practice relating to organs of the body associated with the "element of the day". Yin is fantastic for releasing fascia and nourishing your vital organs by focussing on relevant meridians lines. It may also help to release any residual tension in your body and down-regulate your nervous system.

I am a qualified "Menopause Yoga Teacher" and an Ayurvedic Clinician so you can also expect this wisdom to be woven into my teaching. My aim is to send you home feeling re-invigorated and confident in your practice with additional 'tools' to inspire your own daily wellbeing rituals.

Digital Detoxing optional but fully supported.

NOURISH

I am passionate about food, so for me, it is an essential ingredient of all my retreats! Once again, we will be nourished by the incredible Carolina - my exceptional Private Retreat Chef, who lives on the island. She really does take vegetarian cooking to the next level and loves to create fresh, cleansing and nourishing feasts inspiring many retreat ladies to recreate some of her recipes once back home!

All meals will be vegetarian and any specific dietary requirements catered for... 5 days of being virtually gluten free with no refined sugar will relieve any bloating and give you a sense of 'lightness'!

f

By the time you leave, your micro-nutrient pathway will be flowing optimally and your gut biome & digestion in tip top condition which will serve to boost your immunity.

Alcohol will not be served at the Finca.
